

Prince George - Central Interior

Project Engineer

Our Story

Strategic Natural Resource Consultants is one of the most highly regarded natural resource consulting firms on the West Coast. Strategic adopts an innovative and resourceful model of problem solving that can be seen in our technical expertise, project management and planning. This belief in resourceful thinking carries into our implementation as well. We employ dynamic on-the-ground professionals across BC. Our personnel are industry leaders in resource and land management, professional forestry, construction support services, environmental science, geomatics, and remote site project development.

We are seeking a Project Engineer for our PGCi Region. They will be working collaboratively as part of a team of professionals, technologists and field crews. Responsibilities include; design/drafting – general arrangement and detailed designs for resource roads, bridges, retaining walls, log transfer facilities, marine structures and other infrastructure using AutoCAD Civil 3D preparing technical reports and analysis, assisting with structural design and calculations; design flood hydrology and hydraulic analysis for stream crossing structures; site surveys using a total station and RTK GNSS equipment; bridge and structure inspections, assessments and repair/upgrade plans; construction supervision and set out; field work in rugged wilderness terrain and inclement weather, requiring travel to remote job sites

Qualifications:

- » Registered or eligible for registration with the Applied Science Technologist (AScT) with ASTTBC, or as a Registered Forest Technologist (RFT) or Registered Professional Forester (RPF) with ABCFP
- » A recognized diploma in Civil Engineering or Forest Technology, or an equivalent combination of relevant education and experience
- » A great attitude and attention to detail; excellent client service, interpersonal and teamwork skills
- » Excellent oral and written communication in English
- » A valid Class 5 BC Driver's Licence (or equivalent)
- » Proficiency or working knowledge in design/ drafting using AutoCAD Civil 3D
- » Proficiency in Microsoft Office Suite
- » Able and willing to safely perform field work in challenging conditions

Additional Qualifications and Experience considered an asset:

- » 1 or more years of experience related to the primary responsibilities
- » Experience in engineering, surveying and/or construction in the civil, forest or natural resource sectors, particularly in interior of BC
- » Project/construction management experience
- » Experience in road layout and design in the forest or natural resources sector
- » Proficiency in forest road design using SoftTree RoadEng.
- » Proficiency in detailed structural drafting using AutoCAD or Solidworks

We pride ourselves on maintaining a **safe, respectful and fun** work environment that promotes values such as teamwork, professional accountability, and work/life balance. All applicants must be enthusiastic workers and learners who thrive and excel in a team environment. Positive attitude and dedication to workplace safety are critical to your role with our team. We offer competitive wages commensurate with qualifications, ability and experience; a flexible work schedule; eligibility for a comprehensive group benefits package; potential for annual profit sharing bonuses based on performance of the company. We invest in our employees with training and professional development to meet or exceed ASTTBC Guidelines

Applications will be accepted until position is filled

Please apply with confidence by sending us an email with your resume and cover letter with "PG Project Engineer Application" in the e-mail subject line) to employment@snrc.ca.

We would like to thank all applicants for their interest; however, only those considered will be contacted for an interview. For more information regarding this opportunity, please e-mail above address.
